There are two versions – a vocal version so that you can learn the song, and an instrumental version which can be used as a backing track for performance.

Ian Blake (<http://www.ianblake.net/>) has arranged and recorded the song and played all of the instruments.

The sheet music (words) of the song can also be downloaded for free from

I wrote this song in 2004 because I wanted a simple song about the Olympic Motto for my young students to learn. I have used the song ever since with preschoolers (under 5s) and in primary schools (5 to 12 year olds). It has been sung as part of several schools' Olympic celebrations and at assemblies - performed by small groups, choirs and the whole school. The children have created various actions for the song, and have used instruments to accompany (tuned and untuned), but most times the song has just been sung!

As one of the phrases in the song is copyrighted by the IOC, I understand that I am not permitted to make any money from this, so please accept and use it as a gift!

And if you do use the song, I would love to hear your feedback. Enjoy!
